<b>Jubilee to Jubilee</b> (457 + 1994 - 1 = 2450) *			2 x (5x5) x (7x7) *

(\*) God, it appears, starts with 70 weeks, then makes the timeline 69 weeks (7 + 62) because (a) 70 takes us to the cross where the first judgment took place (b) 49 (7x7) a period between two Jubilees (Lev 25:8) forces us to look at one Jubilee (457 BC) to the other (1994 AD) and (c) 69 is the product of (3 x 23) where 23 relates to the start of the great tribulation in 1988 but cut short in 1994. Notice also the composition of 2450 years (457 BC to 1994: 2 x (5x5) x (7x7)).
